

**LYONS**  
**ROOFING**

### Mission Statement

Customer **service**: with **innovation, quality** and **knowledge** for customers to better protect their most **valuable** assets.

### Service

An absolute must when investing in a new roof for your home or business. Our office is open from 9AM-5PM (Monday-Friday) and backed up by a 24-hour answering service 7 days a week. The Lyons Roofing reputation is built on **reliable** customer service and **knowledgeable** employees.

### Quality

A goal that can only be defined measured and achieved through **customer satisfaction**. We make every effort to achieve customer satisfaction by using proven products that are backed by a manufacturer's warranty in addition to our 10-year workmanship warranty. We are a **reputable** roofing contractor serving the southern Indiana and Kentucky Market for over 20 years.

### Value

Lyons Roofing Company strives to provide a **high quality** product at a **competitive price** to our customers; this is our **value-added** assurance.

### Services offered

- Asphalt Shingle Roofing
- Residential Metal Roofing
- Commercial Grade Standing Seam Metal Roofs
- Single-Ply Roofing Systems
- Gutters/Gutter Guards and Downspouts

## Frequently Asked Questions

- **Is Lyons Roofing a local company; how long has Lyons Roofing been in business?**

Yes, Lyons Roofing is locally owned and operated, **serving customers** in the Southern Indiana and Kentucky area for over 20 years.

- **Does Lyons Roofing keep a clean and safe jobsite?**

Lyons Roofing strives to keep every jobsite clean and safe. Any fragile items will be relocated during the re-roofing process and areas prone to damage are **protected**. After all debris is cleaned up, nail rakes are used on site to ensure nail debris is not left behind.

- **How long will it approximately take Lyons Roofing to replace my roof?**

On average, most homes are completed and cleaned up in one day. This depends on the size of the roof and if there is any structural work required.

- **Do you offer financing?**

Lyons Roofing offers multiple ways to pay your invoice including: online payment, credit cards, cash, check and **financing**. Your sales representative can walk you through the process in as little as 15 minutes.

- **Will you work with my insurance company?**

A trained Lyons Roofing Representative will be there every step of the way. We will meet with adjusters and walk you through the paperwork and the insurance process. We know storms can cause undue stress. Lyons Roofing will assist you in every way possible during this process.

- **Does Lyons Roofing do a complete tear off and inspection of the roof deck?**

Yes, we know that replacing the roof on your home is a big **investment**. Professionally trained installers, will take the existing roof off to the deck and do a full inspection. If for some reason there needs to be wood replaced, we will notify you for your approval.

## The Lyons Roofing Company Advantage

- All sales representatives and management are equipped with tablets and a recently updated all digital platform for quick clear communication and digital record keeping.
- All estimate forms are digitally printed and recorded.

## Lyons Roofing Company Facts

- Locally owned company
- Served the Kentucky and Southern Indiana area for over 20 years
- Retired U.S. Army Veteran established business
- Woman owned and operated business
- Majority of work comes from referrals
- Member of the Better Business Bureau

### Why choose Lyons Roofing Company for your home improvement project?

- \$2 million in liability and excess liability coverage and statutory limits on **Workman's Compensation Insurance** on every job.
- **Certified** manufacturer's status provides you with a manufacturer's level of **workmanship** backed by the manufacturer's warranty.
- Large volume purchasing power allows Lyons Roofing to provide you with the **highest quality** products at a **competitive price**.
- The majority of our work comes from referrals from past customers, a testament to the level of consistent **quality workmanship** and **customer satisfaction**.

### Warranty

- **10-year** standard Lyons Roofing **workmanship warranty**. In addition to manufacturers warranty.
- Single Ply systems **5-year workmanship warranty** and **5-year** scheduled maintenance plan. In addition to manufacturers warranty.
- **5-Year workmanship warranty** on gutters and gutter guard systems. In addition to manufacturers warranty.
- **1-Year workmanship warranty** on all repair work.

- To serve our **community**.
- To be a **reputable contractor** that stands behind our workmanship warranty.

**Thank you** for contacting Lyons Roofing for your home improvement project.

Daidrea D. Lyons  
President

## **10-Year Workmanship Warranty**

We at Lyons Roofing Have a Limited 10-year Workmanship Warranty. The fore mentioned Workmanship Warranty covers leaks in the areas in which Lyons Roofing has installed roofing, siding and skylights.

The Lyons Roofing Workmanship Warranty will be canceled if someone other than Lyons Roofing performs any repairs to our workmanship.

If there is any concern with the products such as dry rotted or cracked rubber plumbing flashing, electric fan thermostats or any other accessories installed by Lyons Roofing please let us know and we will contact the necessary manufacturer for replacement of your product.

The Lyons Roofing Workmanship warranty does not cover roof leaks due to storm damage, hail, high winds, hurricanes, or tornados. Additionally, the Lyons Roofing workmanship will not cover leaks due to stone chimneys & mortar stress cracks, brick stress cracks, crumbling brick mortar problems due to age, Chimney caps or Stucco.

Structural damage is not covered under the Lyons Roofing workmanship warranty: shifting home foundations, chimney foundations, sagging rafters, or uneven boards on roof deck.

If Lyons Roofing can be of any service, please let us know.

Thank you,

Daidrea Lyons  
Lyons Roofing

## **Roofing System & Accessories**

### **Why A complete roofing system for your new roof?**

- Manufacturers Warranties require package systems in order to maintain the integrity of their product.
- Automatically qualifies your new roof for a lifetime limited warranty.
- Provides for non-prorated coverage for the first 10 years of your roof.

**Products shown are for information purposes only; each shingle manufacturer creates an equal product for their brand.**

### **Synthetic Roofing Felt**

Allows Moisture to escape from your attic while providing a strong layer of protection against wind driven rain.

### **Ice and Water Shield**

Provides superior protection against leaks caused by settling and extreme weather. Lyons Roofing Includes in all valleys or high-risk areas on home.

### **Starter Strip Shingles**

Provide a strong bond for your starter and eve shingles. Reducing the risk of blow offs saves you money over the cost of standard shingles.

### **Ridge Cap Shingles**

Enhance the beauty and value of your home, while guarding against leaks at hips and ridges.

### **Ventilation**

Proper ventilation helps remove excess heat and moisture from your attic that can raise energy bills and cause premature failure of your new roofing system.

Lyons Roofing provides all applicable accessories to meet manufacturers Limited Lifetime warranty standards at no additional cost to you. (Minimum requirement, three Manufacturer specific items per roof system, Apr. 2017)

### INSTALLATION INSTRUCTIONS

RhinoRoof® U20 is a water and vapor barrier and therefore must be installed above a properly ventilated space(s). Follow ALL building codes applicable to your geographical region and structure type as it is considered a vapor barrier.

Always follow safe roofing practices and OSHA safety requirements. Always wear and use fall protection devices when working on roofs. Use caution when walking or standing on RhinoRoof® U20 underlayment in wet or dusty conditions that may reduce traction. Failure to use proper safety equipment and footwear can result in serious injury.

**DECK PREP:** RhinoRoof® U20 should be applied to a properly prepared dry deck that is smooth, clean and free from any depressions, projections, or protruding nails. Acceptable roof deck materials are minimum 3/8 inch plywood, minimum 7/16 inch OSB, or minimum 6 inch roof deck boards. Roof decks should be structurally sound and meet or exceed minimum requirements of the roof deck manufacturer and local building codes.

**USE:** RhinoRoof® U20 must be covered by primary roofing within 90 days of application. U20 is designed for use under asphalt or synthetic shingles, metal in residential applications, and cedar shakes that have been primed.

**APPLICATION:** Slopes from 4:12 and higher: RhinoRoof® U20 is to be laid out horizontally (parallel) to the eave with the printed side up. Horizontal laps should be 4 inches and vertical laps should be 6 inches and anchored approximately 1 inch in from the edge. End laps in a succeeding course should be located at least 6 feet from laps in the preceding course.

Slopes 2:12 to less than 4:12: Cover the deck with two layers of RhinoRoof® U20. Begin by fastening a 22 inch wide strip of RhinoRoof® U20 along the eaves with the minimal fasteners need to hold the course in place. Place a full-width sheet over the 22 inch course and overlap each successive course by 50% plus 1 inch. Additional fasteners may be required in high-wind regions per local building codes. Vertical lap requirements are the same as 4:12 and higher slopes. Slopes less than 2:12: RhinoRoof® U20 is not recommended for use.

**FASTENERS:** Provided there is no rain or high winds, RhinoRoof® U20 can be anchored with staples, cap staples or corrosive resistant 3/8 inch head X 1 inch leg roofing nails (ring shank preferred, smooth leg acceptable), when covered with primary roofing on the same day.

If RhinoRoof® U20 will not be covered on the same day and up to 90 days, then product must be attached to the roof deck using a minimum 1 inch diameter plastic or metal cap roof nail (ring shank preferred, smooth leg acceptable). Miami-Dade approved tin tags/metal caps are also acceptable, and it is recommended for best performance to use with the rough edge facing up. For extended exposure, it is required that RhinoRoof® U20 be anchored in all locations printed on the facer. Consult local building codes for fastener type and spacing requirements.

For extended exposure conditions where driving rain or strong winds are expected, it is recommended to take additional precautions such as doubling the lap widths. Alternatively or in addition to, a compatible sealant could be used between the laps or a peel and stick tape could be applied to the overlaps.

**ANCHORING:** All anchoring nails must be flush, 90 degrees to the roof deck, and tight with the underlayment surface and the structural roof deck. Where seams and joints require sealant or adhesive, use a low solvent plastic roofing cement meeting ASTM D-4586 Type 1, or Federal Spec SS-153 Type 1 such as Karnak, Henry, DAP, MB, Geocel or equivalent. Acceptable alternatives are butyl rubber, urethane, and EDPM based caulk or tape sealant.

# Leak Barriers

Help prevent leaks caused by wind-driven rain and ice dams.

## StormGuard®

- Film-surfaced peel and stick underlayment for asphalt shingles and metal roofing
- Self-seals fasteners and helps protect vulnerable areas of the roof
- 250°F (121.1 °C) high-temperature design. Meets or exceeds the performance criteria of ASTM D1970
- 2 Sq. (200 ft² [18.58 m²]) roll size - excludes laps

## WeatherWatch®

- Mineral-surfaced peel and stick underlayment for asphalt shingles
- Self-seals fasteners and helps protect vulnerable areas of the roof
- Meets or exceeds the performance criteria of ASTM D1970
- 2 Sq. (200 ft² [18.58 m²]) & 1.5 Sq. (150 ft² [13.94 m²]) roll sizes - excludes laps

## Leak Barrier Application Recommendations:

Strongly recommended around	Optional around	Required by code at <sup>1</sup>	Region <sup>1</sup>
1. Penetrations	5. Hips & rake edges	7. Eaves in colder zones <i>Recommended in warmer zones</i>	1. Colder zone
2. Skylights			
3. Valleys & dormers	6. Ridges		2. Warmer zone
4. Flashings & transitions			

For the full collection visit [gaf.ca/LeakBarriers](https://gaf.ca/LeakBarriers)

¹ Always check local building codes for requirements in your area.

² To qualify for this coverage, must be installed with GAF Lifetime Shingles and at least 3 qualifying GAF Accessories. See [gaf.ca/LRS](https://gaf.ca/LRS) for qualifying products and see *GAF Roofing System Limited Warranty* for complete coverage and restrictions.

# Pro-Start® Starter Strip Shingles

## Benefits:

- **Properly positioned Dura Grip™ Adhesive** helps to lock down the shingles at the eaves and rakes to reduce the risk of shingle blow-off
- **Pre-perforated design** is easy to use and install, with no cutting on the roof
- **No more wasted time (or material)** cutting your own starter strips
- **At least 50% more coverage** per bundle (vs. typical 3-tab strip shingles)
- **GAF offers increased wind coverage** on many GAF shingles when you use GAF starter strips<sup>3</sup>
- **Eligible for a Lifetime<sup>†</sup> limited warranty** when installed on Lifetime<sup>†</sup> Shingle roofs and they're an eligible accessory product in the Starter Strip Category of GAF residential enhanced warranties

## Installation:

Tears in half easily along perforation for easy installation

Installs at the eaves and rakes to help prevent shingle blow-off

## Product details:

**For use with most standard English and metric-sized asphalt shingles**

- Full sheet: 13" x 38" (330 x 965 mm)
- Half sheet: 6.5" x 38" (165 x 965 mm)

### Packaging

- **Bundle count:** 19 full sheets (38 individual pieces)

### Coverage

- Approx. 120.33 lineal feet (36.69 lm) (when split in half)

### Code Approvals:

- State of Florida approved
- Miami-Dade County Product Control approved
- ICC-ES ESR-1475
- Meets ASTM D3462<sup>1</sup>, D3018
- ASTM D3161 Class F
- UL Listed to ANSI/UL 790 Class A<sup>2</sup>

<sup>†</sup> Lifetime refers to the length of warranty coverage provided and means as long as the original individual owner(s) of a single-family detached residence [or eligible second owner(s)] owns the property where the qualifying GAF products are installed. For other owners/structures, Lifetime coverage is not applicable. Lifetime coverage on shingles requires the use of GAF Lifetime Shingles only. See the *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions. Visit [gaf.com/LRS](http://gaf.com/LRS) for qualifying GAF products. Lifetime coverage on shingles and accessories requires the use of any GAF Lifetime Shingle and at least 3 qualifying GAF Accessories. See the *GAF Roofing System Limited Warranty* for complete coverage and restrictions. For installations not eligible for the GAF Roofing System Limited Warranty, see the *GAF Shingle & Accessory Limited Warranty*. Visit [gaf.com/LRS](http://gaf.com/LRS) for qualifying GAF products.

<sup>1</sup> Periodically tested by independent and internal labs to ensure compliance with ASTM D3462 at time of manufacture.

<sup>2</sup> Refer to UL Online Certification Directory for actual assemblies.

<sup>3</sup> See *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions.

BURNISHED SLATE

*a lasting roof makes a lasting impression*

**Would you buy a house if it had exterior walls that needed to be replaced every 15-20 years?**

Never. Yet millions of homeowners annually purchase asphalt shingle roofs that will only last 20 years at best.

Fortunately, this is changing.

Homeowners are discovering a far more permanent roofing solution – metal.

Explore the clear advantages of metal roofing today – why metal has become the fastest-growing category of roofing, and why a Metal Sales™ roof offers the best value to today’s well-informed homeowner.

BURNISHED SLATE

DARK BRONZE

TAUPE

**COMMON MYTHS OF METAL ROOFS**

***“When it rains, metal roofs are noisy.”***

This is one of the most common misconceptions of residential metal roofing. This likely stems from a common experience with the sound that rain makes on old barns and worn buildings. The difference between a barn and residential roof is a solid roof deck. This deck combined with underlayment dampens noise, resulting in a roof that is no more or less noisy than any other type of roof.

***“Metal roofs get struck by lightning.”***

Lightening strikes the highest point in an area, regardless of material. Metal roofs have the same chance of being struck as asphalt shingle, slate, wood or any other type of roof material.

***“Metal roofs are heavy.”***

Surprisingly, metal roofing is generally 50% lighter than an asphalt roof and 75% lighter than concrete tile, fiber cement shakes and slate.

***“Metal roofs rust.”***

Metal roofs have come a long way. Metal Sales roofing features multi-layer protection that starts with a protective Galvalume® or galvanized coating over the base metal, and employs high-quality color systems that carry industry-leading warranties. The advanced alloys in these protective coatings have undergone real-world weathering tests and ensure that your metal roof will remain impervious to corrosion for decades to come.

***“You can’t walk on a metal roof.”***

Metal roofing is very durable. You can safely walk on a metal roof without causing damage to the panel. The solid roof deck under the metal panels provides ample structure to easily hold a person.

***“Metal roofs are hot.”***

Under sunlight a roof gets hot. However, metal roofs come in a variety of ‘cool’ colors that reflect solar heat. Metal also releases solar heat quicker than asphalt shingles, reducing the heat load on a home. According to the Heat Island Group of Lawrence Berkeley National Laboratory, reflective metal roofs reduce the need for cooling homes during hot summer months by up to 40%, saving energy and money.

## WHY METAL?

### Longevity

A metal roof will likely be the last roof you ever purchase. A quality metal roof will last for generations – three times or longer than an asphalt shingle roof.

### Resale Value

On average, a quality metal roof increases the value of a home by \$1.45 per square foot.<sup>1</sup> Asphalt shingle roofs are often a liability when it's time to sell.

### Aesthetics

Metal roofs offer a wide variety of profiles and unlimited colors to complement and dramatically improve the curb appeal of any style home.

### Virtually Maintenance Free

Metal roofs are easily maintained with simple washing of plain water or with household detergents for areas with heavy dirt deposits. Occasional light cleaning will maintain a good appearance.

### Reduced Insurance Premiums

Unlike asphalt or wood shingles, a metal roof exposed to burning embers will not catch fire. Also, metal roofs fair better than shingles in high winds. These advantages can save up to 35% on insurance premiums.<sup>2</sup>

### Environmentally Responsible

Steel is the #1 recycled material in the world, and residential metal roofs are made from up to 30% recycled steel. Asphalt shingles contain petroleum, are rarely ever recycled, and contribute 11 million tons of landfill waste per year.<sup>3</sup>

HEMLOCK GREEN

## WHY METAL SALES?

### Best Quality

Metal Sales™ roofs feature the safest and highest quality protective coating systems to ensure that your roof remains pristine, holds its color, and is free of corrosion for generations to come. Beware of cheap imported steel, as it generally uses inferior coatings that do not last and may contain dangerous toxins, including lead.

### Best Warranty

Compare Metal Sales warranty options to any other roofing manufacturer and you'll discover true peace-of-mind. Metal Sales 45 year durability warranties are the best in the industry.

### Best Value

Metal Sales offers homeowners the best overall value in metal roofing because of our purchasing power and commitment to using only the highest quality steel and coating systems.

### Best Support

Metal roofs must be installed by experienced and skilled contractors to ensure trouble-free longevity. Metal Sales operates 21 locations nationwide to provide roofing contractors with hands-on training and support to ensure that your roof is installed expertly.

### Cool Roofing Energy Savings

All Metal Sales color coatings – even the darkest – are ENERGY STAR® listed for their ability to remain cool. This results in up to 40% annual energy savings and may qualify a homeowner for utility rebates and tax credits.<sup>1</sup>

Today's discerning homeowner demands higher quality, longer lasting, and environmentally-sound products. Metal Sales has more than 50 years of experience as an industry leader in providing exactly this type of product.

## OTHER THINGS TO CONSIDER

## Metal Thickness

Gauge is the measurement of sheet metal thickness. The lower the gauge number, the thicker the steel. 26 gauge is the most common thickness for residential metal roof panels. 24 gauge (thicker) and 29 gauge (thinner) are other popular choices. Lower gauge panels offer superior durability and lifespan compared to higher gauge panels.

## Concealed Fastener Roof

Some concealed fastened panels use hidden clips that attach the metal panels to the roof substrate, allowing the panels to expand and contract freely and extending the life of the roof. Another type of concealed fastener panel is attached to the roof with screws along the edge of the panel. The adjoining panel covers the row of screws, protecting them from rain, snow, ice and sun.

## Exposed Fastener Roof

This more economical option uses screws that penetrate the roof panel to attach to the roof substrate. The screws include a special gasket that helps prevent leaking at the penetration.

## Protective Coatings

Multi-layer coatings are factory applied to metal roof panels for long-term corrosion resistance, for color and to keep your roof cooler during sunny days. It helps to understand these systems when making a choice for your home. Quality coating systems offer superior protection and durability, have undergone real-world testing, and usually come with a warranty that guarantees optimal performance.

## Profile

The rib height of a panel is an important consideration when choosing a metal roof system. Short ribs give a 'softer' look than tall ribs. Some panels have ribs only at the seams while others have several ribs per panel.

## **Lyons Roofing Tier 1**

### **Owens Corning Oakridge GAF Timberline Natural Shadow**

#### **Why Chose a Value Series product?**

- Value Series shingles have a warm, inviting look in popular colors for a step up from traditional three-tab shingles at no additional cost.
- Cost stays low while providing a dependable long lasting product for your home.
  - High wind resistance.

#### **Owens Corning Oakridge Technical Specifications**

- Warranty Length- Limited Lifetime (for as long as you own your home)
- Wind Resistance- 110/130 MPH (130 MPH requires upgraded wind nailing)
  - Algae Resistance- 10 years

#### **GAF Timberline Natural Shadow Technical Specifications**

- Warranty Length- Limited Lifetime (for as long as you own your home)
- Wind Resistance- 110/130 MPH (130 MPH requires upgraded wind nailing)
  - Algae Resistance- 10 years

Lyons Roofing provides all applicable accessories to meet manufacturers Limited Lifetime warranty standards at no additional cost to you. (Minimum requirement, three Manufacturer specific items per roof system, Apr. 2017)

## Benefits

- **Great Value...**  
Architecturally stylish but practically priced—with a Lifetime Ltd. warranty.\*
- **Attractive Appearance...**  
Features a classic shadow effect. Lends any home a subtle, even-toned look with the warmth of wood.
- **Highest Roofing Fire Rating...**  
UL Class A, Listed to ANSI/UL 790
- **High Performance...**  
Designed with Advanced Protection® Shingle Technology, which reduces the use of natural resources while providing excellent protection for your home (visit [gaf.com/APS/](http://gaf.com/APS/) to learn more).
- **Stays In Place...** Dura Grip™  
Adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles warranted to withstand winds up to 130 mph!†
- **Peace Of Mind...** Lifetime Ltd. transferable warranty with Smart Choice® Protection (non-prorated material and installation labor coverage) for the first ten years.\*
- **Perfect Finishing Touch...**  
Use Timbertex® Premium Ridge Cap Shingles or Ridglass® Premium Ridge Cap Shingles.\*\*

\* See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Ltd. Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

\*\* These products are not available in all areas. See [www.gaf.com/ridgecapavailability](http://www.gaf.com/ridgecapavailability) for details.

† This wind speed coverage requires special installation; see GAF Shingle & Accessory Ltd. Warranty for details.

*Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.*

## Install Peace Of Mind... Install To Protect!

When you install GAF Timberline® Natural Shadow® Shingles with **Advanced Protection® Shingle Technology**, you're getting the very best combination of weight and performance that modern manufacturing technology can deliver. In fact, you won't find a shingle that surpasses Timberline® on:

- ✓ Toughness
- ✓ Wind uplift resistance
- ✓ Flexibility
- ✓ Fire resistance

That's why every Timberline® Shingle comes with GAF's transferable Lifetime Ltd. Warranty\*—for your peace of mind!—plus the backing of the Good Housekeeping Seal.\*\*

\*See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Ltd. # OAKRIDGE®

Shingles | Tejas

Brownwood<sup>1</sup>

Desert Tan<sup>1</sup>

Onyx Black<sup>1</sup>

## HIGH PERFORMANCE WITH BEAUTY TO MATCH

Oakridge® laminated shingles provide premium protection and impressive curb appeal. A full double layer in the nailing zone gives Oakridge® Shingles greater integrity and better holding power compared to shingles with single-layer nail zones. And the warm, inviting look in popular colors provides a step-up from traditional three-tab shingles.

**Oakridge® Shingles are The Right Choice® for long-lasting performance and striking beauty.**

### Oakridge® Shingles offer:

- Limited Lifetime Warranty<sup>\*†</sup> (for as long as you own your home)
- 110/130 MPH Wind Resistance Limited Warranty<sup>\*††</sup>
- StreakGuard™ Protection with a 25-year Algae Resistance Limited Warranty.<sup>3/§</sup>

### Don't let black streaks lower the value or curb appeal of your home.

Owens Corning blends specialized copper-lined granules, developed by 3M, a leading producer of roofing granules, into our colorful shingles. This helps resist blue-green algae growth.\*

## DESEMPEÑO ELEVADO Y ASPECTO SIN IGUAL

Las tejas laminadas Oakridge® proveen una protección superior y un aspecto espectacular. Una doble capa integral en el área de clavado provee a las tejas Oakridge® de mayor integridad y mejor poder de agarre respecto de las tejas con zonas de clavado de una sola capa. Además, el cálido y atractivo aspecto en una gama de colores populares añade un toque de elegancia respecto de las tejas comunes de tres lengüetas.

**Las tejas Oakridge® son The Right Choice® para lograr un desempeño duradero y un aspecto espectacular.**

### Las tejas Oakridge® ofrecen:

- Garantía limitada de por vida<sup>\*†</sup> (mientras sea propietario de la vivienda)
- Garantía limitada de resistencia al viento<sup>\*††</sup> de 177/209 km/h (110/130 mph)
- Protección StreakGuard™ con una garantía limitada de 25 años de resistencia a las algas.<sup>3/§</sup>

### No deje que las manchas de algas afecten el valor o aspecto de su vivienda.

En sus coloridas tejas, Owens Corning añade gránulos especiales con recubrimiento de cobre, desarrollados por 3M, un productor líder de gránulos para techos. Esto ayuda a prevenir la proliferación de algas azul-verdosas.\*

COLOR DISCLAIMER

As color experts, we know getting the shingle color right is a big part of any roofing purchase. Due to printing color variations, in addition to viewing shingle literature, we suggest you request an actual shingle sample to see how it will appear on your home and with your home’s exterior elements in various natural lighting conditions. Lastly, we recommend you verify your color choice by seeing it installed on an actual home; your roofing contractor or supplier can provide a sample and may be able to direct you to a local installation.

DESCARGO DE RESPONSABILIDAD SOBRE LOS COLORES

En tanto que especialistas en color, sabemos que obtener el color de teja perfecto es una parte importante en toda compra de techos. Debido a las variaciones en los colores impresos, además de mirar folletos de tejas, le sugerimos que solicite una muestra de la teja para ver como se verá en su hogar y con los elementos externos de la vivienda bajo distintas condiciones de luz natural. Finalmente, le recomendamos que para verificar su elección de colores, vea cómo lucen las tejas ya instaladas en una vivienda; su contratista de techos o su proveedor le pueden dar una muestra e incluso indicarle dónde ver un techo ya instalado.

THE FINISHING TOUCH

OWENS CORNING®  
HIP & RIDGE SHINGLES

Owens Corning® Hip & Ridge Shingles are uniquely color matched to Oakridge® Shingles. The multiple color blends are only available from Owens Corning® Roofing and offer a finished look for the roof.

EL TOQUE FINAL

TEJAS DE LIMATESA Y CUMBRERA DE  
OWENS CORNING®

Las tejas de limatesa y cumbrera de Owens Corning® se ofrecen en una exclusiva gama de colores para combinar con las tejas Oakridge®. Esta gran variedad de combinaciones de colores es una exclusividad de Owens Corning® Roofing para lograr techos con un acabado único.

## PREMIUM PROTECTION

# OAKRIDGE® SHINGLES

with a full common bond nail zone for Double Layer Protection

# THE PROOF IS IN THE PERFORMANCE

Proven performance is what truly sets Owens Corning® architectural shingles above the rest. We brought our Oakridge® Shingles into the lab to test their performance against the two top competing wide, single-layer nailing zone shingles in three major tests. And in each test, the full double layer protection of Oakridge® Shingles outperformed the competition where it matters most—the nailing zone.

# THERE'S A LINE BETWEEN A GOOD SHINGLE AND A GREAT SHINGLE.®

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology, only from Owens Corning.

## HAY UNA GRAN DIFERENCIA ENTRE UNA BUENA TEJA Y UNA TEJA EXCELENTE™

Es la línea de clavado en su tejas. La diferencia entre una buena teja y una teja excelente es la tecnología patentada SureNail®, una exclusividad de Owens Corning.

**Excellent Adhesive Power**  
Helps keep the shingle layers laminated.

**Excelente poder adhesivo**  
Ayuda a conservar el laminado de las capas de las tejas.

**Breakthrough Design**  
Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

**Diseño innovador**  
La tecnología patentada SureNail® es la primera y la única que provee un área de clavado reforzada en la cara de la teja.

**"No Guess" Wide Nailing Zone**  
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see, strong, durable fastener zone.

**Área de clavado ancha, sin cálculos "a ojo"**  
Esta banda resistente de tela mecánica tejida está incrustada en la teja para proveer un área de sujeción resistente, duradera y fácil de detectar.

**Outstanding Grip**  
The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®\*\*\* sealant for exceptional wind resistance of a 130-MPH wind warranty.

**Agarre excepcional**  
La banda SureNail® mejora el excelente agarre de nuestro sellador patentado Tru-Bond®\*\* con una garantía de resistencia al viento excepcional de 210 km/h (130 mph).

**Triple Layer Protection\*\***  
A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

**Triple Layer Protection\*\***  
Cuando la tela cubre las dos capas de la teja, se forma una "triple capa" de refuerzo excepcional que ofrece una mayor protección ante el "arranque de clavos" debido al viento.

**Double the Common Bond**  
SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

**Duplica la adherencia común**  
En comparación con las tejas comunes, SureNail® ofrece un área de unión hasta un 200 % más ancha entre las capas de la teja en el área de clavado.

## UPGRADE TO BOLDER COLOR

with TruDefinition® Duration® Designer Shingles

Seeking a more dramatic upgrade to the look of your roof? TruDefinition® Duration® Designer Shingles offer the same durability and performance as Duration® Shingles in a richer, more vibrant palette of colors. Featuring high-contrast tones of unique shade blends, Duration® Designer Shingles give you a more distinctive view from the curb.

## ANÍMESE CON UN COLOR MÁS ATREVIDO

con las tejas TruDefinition® Duration® Designer

¿Quiere mejorar su techo para que luzca espectacular? Las tejas TruDefinition® Duration® Designer ofrecen la misma durabilidad y desempeño que las tejas Duration® con una paleta de colores más amplia e intensa. Con tonalidades contrastantes y una combinación cromática exclusiva, las tejas Duration® Designer otorgan a su casa una perspectiva más atractiva.

## GET INSPIRED WITH STYLE BOARDS

To you it's more than just a roof—it's an expression of your personality and style. Sometimes you just need to see the entire design before you can decide on the roof color you want. To help, we've created style boards using our popular TruDefinition® Duration® Series Shingles.

## INSPIRESE CON TABLEROS DE ESTILOS

Para usted es mucho más que un techo, es la expresión de su personalidad y de su estilo. A veces, simplemente necesita ver el diseño completo antes de poder decidir qué color de techo quiere. Para ayudarlo, hemos creado tableros de estilos con nuestra línea de tejas TruDefinition® Duration®.

### DESIGNING WITH ONYX BLACK

Crisp white and deep black is a classic combination. Add a fresh Farmhouse twist with vintage details and a side of organic greens.

Explore our inspirational style boards at [roofingfashioncolors.com](https://roofingfashioncolors.com).

### DISEÑOS CON ONYX BLACK

Blanco radiante y negro profundo, una combinación clásica. Añada un toque campestre con detalles de época y una pizca de verdes orgánicos.

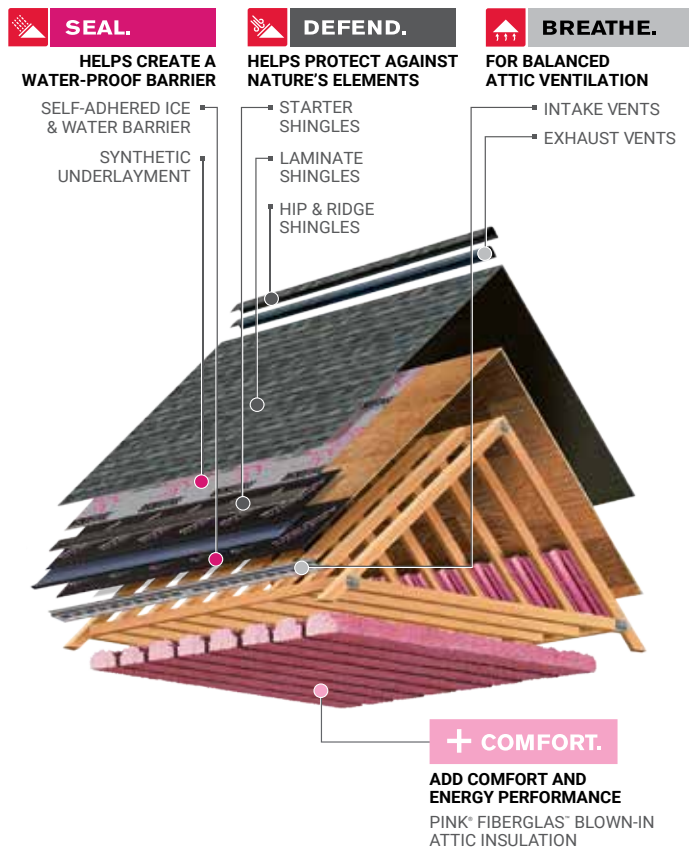

Visite [roofingfashioncolors.com](https://roofingfashioncolors.com) para inspirarse con nuestros tableros de estilo.

(Brookville, Medina, Minneapolis, Summit)

\* See actual warranty for complete details, limitations and requirements.

† 40-Year Limited Warranty on commercial projects.

‡ Owens Corning testing against competing products with wide, single-layer nailing zones when following manufacturers' installation instructions and nailing in the middle of the allowable nailing zone.

\*\* Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing® and Asphalt, LLC.

+ The amount of Triple Layer Protection® may vary on shingle-to-shingle basis.

# International Code Council Evaluation Services Acceptance Criteria for Alternative Asphalt Shingles.

^ Excludes non-Owens Corning® roofing products such as flashing, fasteners, pipe boots and wood decking.

1 See Color Disclaimer information on page 6 for additional details.

2 Applies to all areas that recognize Miami-Dade Notice of Acceptance (NOA).

3 Shingles are algae resistant to control the growth of algae and discoloration.

§ This coverage is effective 1/1/2023; Installation must include use of an Owens Corning® Hip & Ridge product. See actual warranty for details.

For Patent information, please visit [owenscorning.com/patents](http://owenscorning.com/patents).

SureNail® Technology is not a guarantee of performance in all weather conditions.

4 Owens Corning® Black Sable shingle includes a patented design.

# Timberline<sup>®</sup>HDZ<sup>®</sup>

High Definition<sup>®</sup> Lifetime<sup>†</sup> Shingles

As featured on *This Old House*, the Timberline HDZ<sup>®</sup> Shingles installed here are Oyster Gray.

Millions of families have found shelter and peace of mind under a Timberline<sup>®</sup> roof.

And now, a good thing just got even better again.

We protect what matters most<sup>™</sup>

# It's a system, built to protect

A Timberline HDZ® roof is so much more than shingles. It's layers of protection, working together to help keep your home safe from rain, snow, sun, and wind.

In fact, installing 4 qualifying GAF Accessories — GAF starter strips, roof deck protection, ridge cap shingles, and either leak barrier or attic ventilation — in one roof system makes Timberline HDZ® Shingles eligible for the WindProven™ limited wind warranty.<sup>1</sup>

Timberline HDZ® Shingles also feature GAF Time-Release Algae-Fighting Technology, for long-lasting algae-fighting power, and come with a 25-year StainGuard Plus™ Algae Protection Limited Warranty against blue-green algae discoloration.<sup>2</sup>

LayerLock™ Technology mechanically fuses the common bond between overlapping shingle layers. The added strength at the common bond powers the StrikeZone™ — the industry's widest nailing area.

<sup>1</sup> 15-year WindProven™ limited wind warranty on GAF Shingles with LayerLock™ Technology requires the use of GAF Starter Strips, Roof Deck Protection, Ridge Cap Shingles, and Leak Barrier or Attic Ventilation. See *GAF Roofing System Limited Warranty* for complete coverage and restrictions. Visit [gaf.com/LRS](http://gaf.com/LRS) for qualifying GAF products. For installations not eligible for the *GAF Roofing System Limited Warranty*, see the *GAF Shingle & Accessory Limited Warranty*.

<sup>2</sup> 25-year StainGuard Plus™ Algae Protection Limited Warranty against blue-green algae discoloration is available only on products sold in packages bearing the StainGuard Plus™ logo. See *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions and qualifying products.

## Weathered Wood

The perfect neutral color, Weathered Wood complements a broad range of hues and works well with sage, cream, ivory, and beige.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Charcoal

Charcoal is the most neutral of shades, and works wonderfully with blues, grays, whites, yellow, gold, sage, and green.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Pewter Gray

Pewter Gray can add dramatic counterpoint to contemporary exterior color palettes, as well as to stucco or brick facades.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Barkwood

The neutral brown Barkwood emulates wood and coordinates well with warm colors like beige, taupe, cream, gold, and yellow.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Shakeswood

An appealing blend of browns, tans, and gold, warm radiant Shakeswood pairs equally well with neutral beige and clay tones, as well as deeper jewel tones.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Hickory

An inviting brown shade with a red undertone, Hickory is an excellent companion to brick and stone homes and works well with browns, beiges, yellows, and golds.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Slate

A cool gray with a beautiful green undertone, Slate coordinates well with both grays and greens, as well as with white, cream, and ivory exteriors.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Mission Brown

Emulating the rustic shades and tones of the earth, Mission Brown provides a simple natural backdrop that allows other colors to appear richer and brighter.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Hunter Green

A rich color with dramatic undertones, Hunter Green makes people take notice.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Nantucket Morning

*Harvest Blend Color*

**Features cool gray tones that partner perfectly with blues and grays.**

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

or @jaredkuziaphotography and @thisoldhouse

## Appalachian Sky

*Harvest Blend Color*

**Appalachian Sky** offers a subtle variety of dark grays, black, and browns, bringing appealing definition to homes with brick facades.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Golden Harvest

*Harvest Blend Color*

A striking color that provides warmth to almost any siding or brick, this blend also offers exceptional contrast, for a light, yet colorful roof.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Cedar Falls

*Harvest Blend Color*

The clay-colored background and subtle gray highlights create a refined and polished look that offers a wonderful complement to stone.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

# America's #1-selling shingle just got better — *again.*

**GAF** Timberline HDZ®  
High Definition® Lifetime Shingles

It seems like yesterday. In 2020, GAF introduced Timberline HDZ® Shingles with LayerLock™ Technology, which are eligible for the WindProven Limited Wind Warranty with no maximum wind speed limitation when installed with the required combination of GAF accessories.<sup>1</sup>

Now we're making our most popular shingle even better, with the addition of a 25-year StainGuard Plus™ Algae Protection Limited Warranty<sup>2</sup> against blue-green algae discoloration. Add GAF Hip and Ridge Cap Shingles and starter strips with the StainGuard Plus™ Algae Protection Limited Warranty<sup>2</sup> for protection from eave to ridge.

Offer your customers Timberline HDZ® — the shingle that just keeps getting better. Only from GAF.
